

6th INTERNATIONAL MODELICA CONFERENCE

March 3-4, 2008
Bielefeld, Germany

Conference Advertisement

Modelica is a freely available, object-oriented language that allows convenient and efficient modeling and simulation of complex, multi-domain physical systems described by differential, algebraic and discrete equations. The comprehensive Modelica Standard Library provides a growing number of open source models covering the following domains:

- **Analog and digital electrical circuits**
- **Electrical machines and drives**
- **Rotational and translational 1dim.-mechanics**
- **3-dim. multibody mechanics**
- **Thermal heat transfer**
- **Fluid heat flow**
- **Hierarchical state machines**
- **Control engineering**
- **Mathematics**

The development and promotion of Modelica and the Modelica Standard Library is organized by the non-profit Modelica Association. Since March 2005, version 2.2 of the Modelica language definition has been available together with many free and commercial Modelica libraries, as well as commercial and open source Modelica simulation environments. Convenient interfaces are available for Matlab and Simulink (with Dymola) and to Mathematica (with MathModelica). The language, libraries and tools are used by a growing number of people in industry and academia for advanced and demanding applications, such as 3D vehicle and flight dynamics, hybrid electric powertrains, robotics, air conditioning systems, waste water treatment, electric power systems, hardware-in-the-loop simulations and embedded control systems with nonlinear Modelica models.

Since October 2000 the International Modelica Conference has been held every 18 months with a growing number of participants. In 2008, the University of Applied Sciences in Bielefeld will host the 6th International Modelica Conference. It provides people interested in Modelica the opportunity to learn about the language, model libraries and tools, and to meet others working on similar modeling problems.

Conference Topics

- Multi-engineering modeling and simulation with Modelica
- Free and commercial Modelica libraries (mechanics, electrical, hydraulics, thermal, fluid, media, chemical, building, automotive, aircraft, ...)
- Automotive applications
- Thermodynamic systems applications
- Other industrial applications, such as electric drives, power systems, robotics, aerospace ...
- Hardware-in-the-loop simulation and embedded control systems
- Modelica modeling, simulation and design tools
- Symbolic algorithms for model transformations
- Modelica in other application areas (mathematical programming, databases etc.)
- Modelica for teaching and education

Conference Program

- Modelica Tutorials for different levels of modeling experience
- Four parallel sessions (80 papers)
- Poster session
- User's group meetings
- Presentations from Modelica tool vendors
- Modelica Award for the 2 best free Modelica libraries

Conference Venue

AMMO – University of Applied Sciences, Bielefeld
Universitätsstraße 25, 33615 Bielefeld

Conference Fees

Regular participant € 480,-
Early registration until January 14th, 2008 € 420,-
Incl. VAT and ancillary events

PhD-Student participant € 240,-
Early registration until January 14th, 2008 € 210,-
Incl. VAT, incl. ancillary events

Student participant € 120,-
Early registration until January 14th, 2008 € 100,-
Incl. VAT, excl. ancillary events

Exhibitors € 1000,- (ca. 6 m²)
Exhibitors € 500,- (ca. 3 m²)

Schedule Deadlines

You are encouraged to submit an extended abstract of 2 pages, outlining the material you propose to present or a full paper of maximum length of 10 pages until November 5th, 2007. Notification on acceptance of papers will be sent to the authors by November 26th, 2007.

Final papers are to be submitted until January 14th, 2008. Additionally, you are encouraged to submit a free Modelica application library in Modelica source code form to modelica2008@modelica.org until November 5th, 2007.

The best two application libraries will get an award of € 500 and € 250.

Companies wishing to take part at the exhibition are invited to contact modelica2008@modelica.org until November 5th, 2007.

In case you would like to organize a Modelica related tutorial please contact modelica2008@modelica.org until September 10th, 2007.

Program Chair

Prof. Bernhard Bachmann,
University of Applied Sciences Bielefeld

Program Board

Prof. Martin Otter, DLR, Oberpfaffenhofen
Prof. Peter Fritzon, Linköping University
Dr. Hilding Elmqvist, Dynasim AB, Lund
Dr. Michael Tiller, Emmeskey Inc., Michigan

Program Committee

Prof. Karl-Erik Årzn, Lund University, Lund
Dr. John Batteh, Ford Motor Company, Michigan
Dr. Ingrid Bausch-Gall, Bausch-Gall GmbH, Munich
Daniel Bouskela, EDF, Paris
Prof. Felix Breitenecker, University of Technology, Vienna
Dr. Thomas Christ, BMW, Michigan
Prof. Francesco Casella, Politecnico di Milano, Milano
Prof. François E. Cellier, ETH Zürich
Mike Dempsey, Claytex Services Limited, Leamington
Denis Fargeton, LMS Imagine, Roanne
Dr. Rüdiger Franke, ABB, Heidelberg
Rui Gao, Dassault Systèmes K.K., Nagoya
Anton Haumer, Technical Consulting, Vienna
Dr. Christian Kral, arsenal research, Vienna
Gerard Lecina, Dassault Systèmes, Paris
Dirk Limperich, DaimlerChrysler, Sindelfingen
Kilian Link, Siemens AG, Erlangen
Dr. Jakob Mauss, QTronic GmbH, Berlin
Dr. Ramine Nikoukhah, INRIA, Rocquencourt
Franz Pirker, arsenal research, Vienna
Prof. Gerhard Schmitz, Technical University Hamburg-Harburg
Peter Schneider, Fraunhofer IIS/EAS, Dresden
Dr. Edward D. Tate, General Motors, Michigan
Dr. Wilhelm Tegethoff, TLK-Thermo GmbH, Braunschweig
Dr. Hubertus Tummescheit, Modelon AB, Lund
Dr. Andreas Uhlig, ITI GmbH, Dresden
